

A healthy lunch is so much more than just what's on the plate.

It includes a focus on balanced nutrition, sustainability, and wellness, as well as consideration for how food is prepared and the containers and utensils used. It means that no matter where lunch is served, in school or at home, you are able to feel secure in the choices that you make for this important meal of the day.

How it works.

Registered attendees can tune in each day of the seven-day conference to beyondthelunchbox.com for exclusive access to expert-led videos covering hot topics in the fields of sustainability, health and wellness, nutrition, and kid's lunch.
